

§ 636(b)(1)(A) & (B). The Federal Magistrate Act provides that a district court “shall make a de novo determination of those portions of the report or specified proposed findings or recommendations to which objection is made.” *Id.* § 636(b)(1)(C); Fed. R. Civ. P. 72(b)(3).

However, “when objections to strictly legal issues are raised and no factual issues are challenged, de novo review of the record may be dispensed with.” Orpiano v. Johnson, 687 F.2d 44, 47 (4th Cir. 1982). De novo review is also not required “when a party makes general or conclusory objections that do not direct the court to a specific error in the magistrate judge’s proposed findings and recommendations.” Id. Similarly, when no objection is filed, “a district court need not conduct a de novo review, but instead must ‘only satisfy itself that there is no clear error on the face of the record in order to accept the recommendation.’” Diamond v. Colonial Life & Acc. Ins. Co., 416 F.3d 310, 315 (4th Cir. 2005) (quoting Fed. R. Civ. P. 72, advisory committee note).

III. DISCUSSION

Under Rule 72(b) of the Federal Rules of Civil Procedure, a district court judge shall make a de novo determination of any portion of an M&R to which specific written objection has been made. No objection to the M&R having been filed, and the time for doing so having passed, the parties have waived their right to de novo review of any issue covered in the M&R. Nevertheless, this Court has conducted a full and careful review of the M&R and other documents of record and, having done so, hereby finds that the recommendation of the Magistrate Judge is, in all respects, in accordance with the law and should be approved. Accordingly, the Court **ADOPTS** the recommendation of the Magistrate Judge as its own.

IV. CONCLUSION

IT IS, THEREFORE, ORDERED that the Magistrate Judge’s M&R, (Doc. No. 16), is **ADOPTED**, and Defendant’s Motion for Judgment on the Pleadings, (Doc. No. 9), is **DENIED**.

Signed: September 30, 2015

Robert J. Conrad, Jr.
United States District Judge
